

Geography Curriculum Overview

The curriculum is based on three core themes within which there will be broad overlap and flexibility. They are coloured coded on the overview as so:

Locational Knowledge (forms part of wider topics)

Place Knowledge

Human and physical geography

Geographical skills and fieldwork (forms part of wider topics). Local area topic – one for KS1, one for LKS2, one for UKS2 (i.e. St Lawrence parish fieldwork)

| | Autumn 1 | Autumn 2 | Spring 1 | Spring 2 | Summer 1 | Summer 2 |
|--------|----------|--|----------|--|----------|---|
| Year 1 | | Local Area: Where do | | Continents and Oceans: | | The UK: what kind of place is it? |
| | | we live? | | What can we find out | | |
| | | | | about the world? | | |
| Year 1 | | I can find my home on | | I can use globes, satellite | | I can locate the UK on a globe |
| | | an aerial photograph | | images and geographical | | and world map and annotate a |
| | | and a large-scale plan | | vocabulary to describe the | | map with key information |
| | | or map. | | earth | | |
| | | I can talk about the area where I live and find some features on an aerial photograph or large-scale plan. I can share my ideas about how I could | | I can understand that a map is a 2D model of the world and I know what continents and oceans are I can explain what an ocean is and name Earth's five oceans | | I can locate the UK's capital cities and find out some information about cities I can locate and name some of Scotland's geographical features using atlases, maps, photographs and Google Earth |
| | | investigate the local area and help plan fieldwork in the street outside my school. | | I can explain what a river is and give examples of different rivers in the world I can explain what a mountain is and give some | | I can locate and name some of England's geographical features using atlases, maps, photographs and Google Earth |

Geography Curriculum Overview

| | I can investigate the | global examples of | I can locate and name some of |
|--------|------------------------|------------------------------|-------------------------------------|
| | street outside our | mountains and landmarks | Wales' geographical features |
| | school and do some | with the aid of maps and | using atlases, maps, |
| | fieldwork to observe | atlases | photographs and Google Earth |
| | and record what is | | |
| | there. | I can use atlases and maps | I can locate and name some of |
| | | to locate the UK in the | Northern Ireland's geographical |
| | I can investigate the | world | features using atlases, maps, |
| | street outside our | | photographs and Google Earth |
| | school and do some | | |
| | fieldwork to observe | | |
| | and record what is | | |
| | there. | | |
| | | | |
| | I can make a map of | | |
| | my journey to school | | |
| | showing the buildings | | |
| | and places I pass on | | |
| | the route. | | |
| | | | |
| Year 2 | Local area: Why is | Cold places: What is it like | Contrasting locality: what is it |
| | (our place) special? | at the north and South | like to live in Jamaica? (Link also |
| | | Poles? | with Brazil -) |
| Year 2 | I can describe where a | I can explain what affects | I can locate the Caribbean on a |
| | place is and how to | temperatures locally and | globe or atlas map and describe |
| | get there using the | why it is cold at the North | some ways in which the UK and |
| | address, maps and | and South Poles | the Caribbean are connected |
| | geographical | | |
| 1 | | | |
| | vocabulary | I can locate the North and | l can locate Jamaica on a map |

Geography Curriculum Overview

| You can describe what | describe some of their icy | which Jamaica's climate affects |
|-------------------------|-------------------------------|-----------------------------------|
| your local area is like | features | what this place is like. |
| and name some jobs | | |
| that people do there | I can locate and talk about | I can use aerial photographs and |
| | the Arctic Circle using maps | satellite images to find out |
| You can describe and | and globes, and describe | about Jamaica's physical and |
| show with maps | seasonal changes | human features |
| where you usually go | | |
| in your local area | I can use a range of | I can use digital maps and aerial |
| | geographical sources to | photographs to investigate |
| You can use maps and | describe Antarctica and its | Kingston |
| atlases to talk about | extreme weather and | |
| weather and climate | climate | I can name some crops grown in |
| in the UK and where | | Jamaica and the UK and can |
| you live | I can identify some of the | think of questions I could ask a |
| | wildlife found in the Arctic | farmer in Jamaica |
| You can identify and | and explain how it is | |
| locate some personal, | affected by seasonal | l can use my geographical |
| local and national | change | knowledge to prepare for and |
| landmarks and give | | describe a holiday in Jamaica |
| some reasons why | I can identify some of the | |
| they are important | wildlife found in the | |
| | Antarctic and explain how it | |
| You can do fieldwork | is affected by seasonal | |
| to help you describe, | change | |
| locate and explain | | |
| special features of | I can understand how | |
| your local area | people adapt to living in the | |
| | harsh environments like the | |
| | Arctic and can give an | |
| | example | |
| | L L | ı |

Geography Curriculum Overview

| | I can explain what the Antarctic Treaty is and can explain some reasons why people go to Antarctica | | |
|---|--|---|--|
| Where do people live and why? Europe (Scandinavia) | | Mountains and volcanoes: what, where and why? | Local area: how is it changing? |
| I can name and recognise the key features of villages, towns and cities I can locate and identify villages, towns and cities in atlases and on Ordnance Survey maps I can describe and explain some of the reasons why settlements are established and grow | | key features of a mountain landscape and describe the conditions found on Mount Everest I can name and locate the UK's highest peaks and use OS maps to identify major | I can create enquiry questions to investigate how my local place has changed I can use maps to measure and investigate settlement growth over time I can use enquiry to find out what people think about local changes I can collect data to investigate current changes in my local area and evaluate the impact of these changes |
| I can use Ordnance Survey maps and photographs to identify some changes in my local area | | I can recognise the key features of a volcano and can use geographical vocabulary to name and explain them I can recognise and name the key features of a mountain landscape and describe the | I can interpret fieldwork data to find out more about where I live and how it is changing I can collect data over a school day to investigate changes in the school grounds during a single day |

Geography Curriculum Overview

| $\overline{}$ | | | | • |
|---------------|------------------------|------------------------|--------------------------------|-----------------------------------|
| | I can use Ordnance | | conditions found on Mount | |
| | Survey maps to | | Everest. | |
| | identify some reasons | | | |
| | my local town grew | | I can describe and explain the | |
| | and compare it to | | impact of volcanic eruptions | |
| | another town I know | | on people and understand | |
| | | | why some people choose to | |
| | I can design a new | | live near volcanoes | |
| | settlement that | | | |
| | would be good for | | | |
| | the future | | | |
| Year 4 | Europe: what is it | The water cycle: why | | Local area: what needs changing? |
| | like to live in | is it important? | | |
| | northern Italy? | | | |
| Year 4 | I can locate northern | I can recognise, | | I can use past and current |
| | Italy on a map and | describe and sequence | | sources of evidence to identify |
| | describe how far it is | processes of the water | | how I could investigate change |
| | from where I live | cycle | | in our local area |
| | | | | |
| | I can use maps to | I can describe how | | I can identify and adapt |
| | identify key physical | buildings collect | | appropriate techniques to |
| | and human | rainwater and I can | | support a fieldwork enquiry |
| | geographical features | explain how water | | |
| | of northern Italy | enters and leaves | | I can help plan a fieldwork visit |
| | | buildings and is used | | and know how to keep myself |
| | I can use different | in many different ways | | safe |
| | sources of | | | |
| | information to | I can explain why | | I can gather data and record it |
| | investigate and | water is essential for | | accurately through fieldwork |
| | | human life and I can | | |
| | | identify some of the | | I can analyse, interpret and |
| | Italy | causes and | | reflect on geographical data |
| | | consequences of | | gathered through fieldwork |
| | I can use multiple | people not being able | | |
| | sources of | to access water | | |
| | information to | | | |

Geography Curriculum Overview

| | | | | | 6 |
|-------------------------|--|---|---|--|--|
| investigate what a | I can explain why | | | | I can suggest and argue for |
| town in northern Italy | there is a need to | | | | preferred change in the local |
| is like | move water from | | | | area using sources of evidence |
| | place to place in the | | | | |

Geography Curriculum Overview

Key Stage 1

Pupils should

develop knowledge about the world, the United Kingdom, the Channel Islands and Jersey and their locality understand basic subject-specific vocabulary relating to human and physical geography begin to use geographical skills, including first-hand observation, to enhance their locational awareness.

Pupils should be taught to:

Locational knowledge

name and locate the world's seven continents and five oceans

name, locate and identify characteristics of Jersey, its parishes and main settlements, the other Channel Islands and the surrounding waters.

Place knowledge

understand geographical similarities and differences through studying the human and physical geography of Jersey, and of a small area in a contrasting country.

Human and physical geography

identify seasonal and daily weather patterns in the United Kingdom and Jersey. The location of hot and cold areas of the world in relation to the Equator and the North and South Poles

use basic geographical vocabulary to refer to key physical features, including: beach, cliff, coast, forest, hill, mountain, sea, ocean, river, soil, valley, vegetation, season and weather

key human features, including: city, town, village, factory, farm, house, office, port, harbour, reservoir and shop.

Geographical skills and fieldwork

use world maps, atlases and globes to identify Jersey and the Channel Islands together with their position in relation to the United Kingdom and its countries, France, and the countries, continents and oceans studied at this Key Stage

Geography Curriculum Overview

the location of features and routes on a map

use aerial photographs and plan perspectives to recognise landmarks and basic human and physical features; devise a simple map; and use and construct basic symbols in a key

use simple fieldwork and observational skills to study the geography of their school and its grounds and the key human and physical features of its surrounding environment.

Key Stage 2

Pupils should

extend their knowledge and understanding beyond the local area to include the United Kingdom and Europe, North and South America. This will include the location and characteristics of a range of the world's most significant human and physical features develop their use of geographical knowledge, understanding and skills to enhance their locational and environmental knowledge.

Pupils should be taught to:

Locational knowledge

locate the world's countries, using maps to focus on the United Kingdom and the Channel Islands, Europe (including the location of Russia) and North and South America, concentrating on their environmental regions, key physical and human characteristics, countries, and major cities name and locate counties and cities of the United Kingdom, geographical regions and their identifying human and physical characteristics, key topographical features (including hills, mountains, coasts and rivers), and land-use patterns; and understand how some of these aspects have changed over time

identify the position and significance of latitude, longitude, Equator, Northern Hemisphere, Southern Hemisphere, the Tropics of Cancer and Capricorn, Arctic and Antarctic Circle, the Prime/Greenwich Meridian and time zones (including day and night).

Geography Curriculum Overview

Place knowledge

understand geographical similarities and differences through the study of human and physical geography of Jersey, a region of the United Kingdom, a region in a European country, and a region within one other continent

Human and physical geography

describe and understand key aspects of:

physical geography, including: climate zones, biomes and vegetation belts, rivers, coasts including tides, mountains, volcanoes and earthquakes, and the water cycle

human geography, including: types of settlement and land use, economic activity including trade links, and the distribution of natural resources including energy, food, minerals and water.

Geographical skills and fieldwork

use maps, atlases, globes and digital/computer mapping to locate countries and describe features studied use the eight points of a compass, four and six-figure grid references, symbols and key (including the use of Ordnance Survey maps) to build their knowledge of the United Kingdom and the wider world

use fieldwork to observe, measure, record and present the human and physical features in the local area using a range of methods, including sketch maps, plans and graphs, and digital technologies.
