

St Lawrence School – ICT Safety Rules

Responsible Use Policy – Key Stage One

	I will only use a device (pc, netbook or iPad) when a teacher says I can and I will use ICT equipment carefully.
	If anything on a device does not work, I will tell a teacher straight away.
	I will only use websites and links that my teacher says I am allowed to use.
	I will only search for things that I have been told to search for by a teacher.
	If I get lost on the internet, I will ask a teacher for help.
	If I see anything on the internet or on a device that upsets me, I will tell a teacher.
	I will never give out personal information such as my address or telephone number.
	My messages and e-mails will always be polite and sensible.
	I know that everything I do can be watched and this information can be shown to other people if I break these rules.
